NOTE: This is a Pharmacy Bulk Package and is not intended for use in direct patient care without further processing into end use containers. The contents must be stored at controlled room temperature and processed on or before the expiration date printed on the label. The bag is intended for single entry using a sterile transfer device in a ISO Class 5 PEC. Once the bag is spiked, any unused contents must be discarded 6 hours after initial entry. The final end use package must be used within the timeframe designated by your institution per your policies and procedures.
