

Innovative Syringe Safety Labels

QuVa Pharma's New Syringe Flag Labels raise patient safety standards by helping reduce the risk of drug/dosing errors.

Improved Features That Can Help Reduce Medical Errors:

- ✓ Large two-sided Flag Label with full drug and dose visibility regardless of syringe orientation
- ✓ Drug and dose listed on both sides of the label extension
- ✓ ASTM color standard on extended Flag label border

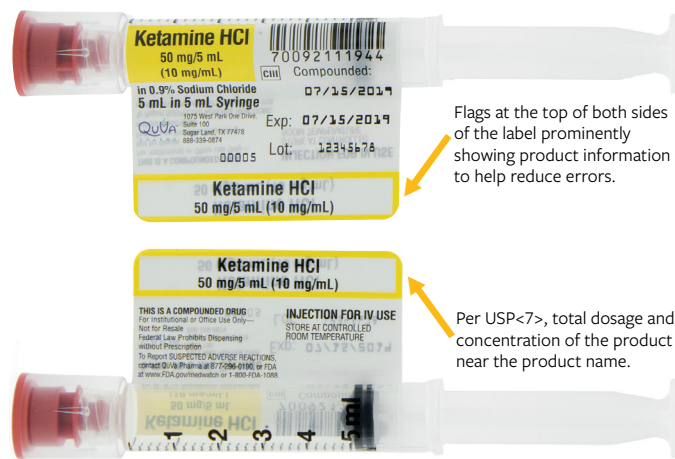

Benefits:

- ✓ Faster drug identification
- ✓ Prominently displayed drug, strength and total concentration facilitates reading of the label information rather than relying solely on visual cues such as color
- ✓ Improved visibility of syringe content and graduation marks
